

CONTENTS

Prem Prakash, Kamlesh Prasad	
Comparative elucidation of garlic peeling methods and positioning of quality characteristics using principal component analysis	119
Ngo Van Tai, Nguyen Minh Thuy	
Optimization of the osmotic dehydration process for improving the quality of vacuum-fried “Vinh Chau” shallots at the pilot stage	133
Ramal Ahmed Mustafa	
Physical characteristics and the effect of soaking on mineral concentration in rice varieties associated with human health risks	143
Shanthirasekaram Kokilanthan, Vajira P. Bulugahapitiya, Harshi Manawadu, Chinthaka Sanath Gangabadage	
Chemical profile and antioxidants property of <i>Eryngium foetidum</i> L. leaves – use of HPLC methods to optimize extracting solvents to be used in functional food development	159
Wei Jiang, Yao Liu, Fu Qiao, Zhongyan Liu, Jianfang Xiong, Shaogeng Zeng	
Phase diagram combined with improved fuzzy support vector machine for rapid and nondestructive detection of Diarrhetic shellfish poisoning	169
Roksana Jurczak-Amroziejcz, Julita Reguła, Aneta Wolodkiewicz	
Assessment of nutrition and nutritional status parameters in hemodialysis patients	183
Pınar Şanlıbaba, Başar Uymaz Tezel	
Traditional fermented foods in Anatolia	193
Desislava Vlahova-Vangelova, Desislav Balev, Nikolay Kolev, Velizar Stoyanov	
Effect of drying regimes on the quality and safety of alternative protein sources – yellow mealworm larvae (<i>Tenebrio molitor</i> L.)	217
Minh Tri Nhan, Diep Kim Quyen	
Effects of heating process on kinetic degradation of anthocyanin and vitamin C on hardness and sensory value of strawberry soft candy	227
