

CONTENTS

Binh Ly Nguyen

- Effect of calcium and sucrose on the thermal inactivation of pectin methylesterase from tomato fruits: a kinetic study 139

J. K. Pallavi, M. Soundarya, M. Sukumar

- Microencapsulation of prebiotics extracted from *Citrus* seeds and establishment of their stability for food vehicles 151

Rita Irma, Ridwan Amiruddin, Nurhaedar Jafar, Wahiduddin, Akhmad Rifai, Gemini Alam, Agung Wibawa Mahatva Yodha, Toto Sudargo, Sudirman Nasir, Apik Indarty Moedjiono

- Evaluation of the bioactive composition of cocoa pod husk from Sulawesi Island, Indonesia, for health benefits 163

Sediqeh Soleimanifard, Zahra Emam-djomeh, Gholamreza Askari, Mohammad Shahedi

- Multidimensional comparative analysis of three baking methods of the cupcake – Thermophysical approach 179

Faramitha, Meta Mahendradatta, Muhammad Asfar, Muhammad Iqbal, Adriyani Adam

- Study utilisation of purple sweet potato in food products: research trends bibliometric 187

Nguyen Nhat Minh Phuong, Kieu Minh Vuong, Luu Thai Danh, Nguyen Bao Loc, Tran Chi Nhan

- Effects of alkaline extraction conditions on the yield and physicochemical properties of dietary fiber from Cat Chu mango (*Mangifera indica* L.) peel 203

Giang T. N. Nguyen, Khai V. Tran, Tuyen T. X. Vo, Tan D. Nguyen

- The nutrient, color and antioxidant capacity of asparagus (*Asparagus officinalis* L.) root tea after blanching 213

Ibtissame Guirrou, Mohamed Kouighat, Rajae Kettani, Karim Houmanat, Charafeddine Kassimi, Abdelhay El Harrak, Abdelghani Nabloussi

- A comprehensive analysis of the influence of variety and climate on some properties of sunflower oil .. 225

Anda E. Tanislav, Dorin Țibulcă, Vlad Mureșan, Elena Mudura

- Rheological and textural analysis of Vienna sausage production: the effects of substituting animal fat with sunflower oil 245

Cristal Alejandra Ochoa-Chantaca, Julia Mariana Márquez-Reyes, Rocío Yaneli Aguirre-Loredo, Alejandro Isabel Luna-Maldonado, Celestino García-Gómez

- Phytochemical and antioxidant evaluation of *Moringa oleifera* and *Aloe vera* in the fermentation of kombucha 257
